

## Basic Wine Glass Charms

Your guests will enjoy these wine glass charms

You will need:

- Small memory wire
- Crimp beads
- Jump rings
- Hollow beads/spacer beads
- Yellow seed beads
- "Clothing" charms
- Wire cutters
- Round nose pliers
- Crimping pliers

Step 1:

Using the wire cutters, cut three equal size slightly overlapped circles.

Step 2:

Using the round nose pliers, bend a small loop on one end of the cut memory wire.

Step 3:

Place a crimp bead onto the memory wire followed by spacer or hollow bead, followed by two yellow seed beads and another hollow bead or spacer bead.

Step 4:

Bend open a jump ring by placing the round nose pliers in the center and gently opening. Loop one of the charms onto the open jump ring. Bend closed by gently squeezing the jump ring from the outer side with the pliers.

Step 5:

Place the charm onto the memory wire. Place a hollow bead or spacer bead. Add another two yellow seed beads, followed by a hollow bead or spacer bead again, followed by a crimp bead.

Step 6:

Position the charm opposite the loop and using the crimping pliers, flatten the crimps to keep your beads in place.

**Step 7:**

Using the round nose pliers bend the other end of the memory wire to be able to hook into the loop to close your ring.

This is easily varied by using different colour beads and types of beads, as well as different charms. Guests will enjoy being able to chose how to mark their glasses to avoid confusion.

**Congrats!!!**

You have successfully completed a set of wine glass charms.
